Websource-Eingabe/Verknuepfung mit Content Extractor

The screenshot displays the 'Web Source Configuration' page for 'Gem DB extract' in the Lixto Transformation Server. The browser's address bar shows the URL: `http://gallina.lixto.tuwien.ac.at:23080 - Gem DB extract - Web Source Configuration - Lixto Transformation Server - Mozilla Firefox`.

Configuration options include:

- Enable retry
- Retry after a delay of (seconds):
- Retry delay multiplier:
- Number of retries:
-

The 'Navigation Sequence' section contains an 'Add New Request' button and a list of four defined requests:

This is the currently defined navigation sequence:

- `http://www.gem.or.at/cgi-bin/gem.pl?funktion=stichwort&stichwort2=&operator=OR&stichwort1=45&aktion=suche&submit=Suche&sprache=de`
CE Project: gem-db1.project.xml
- `http://www.gem.or.at/cgi-bin/gem.pl?funktion=stichwort&stichwort2=&operator=OR&stichwort1=1&aktion=suche&submit=Suche&sprache=de`
CE Project: gem-db1.project.xml
- `http://www.gem.or.at/cgi-bin/gem.pl?funktion=stichwort&stichwort2=&operator=OR&stichwort1=2&aktion=suche&submit=Suche&sprache=de`
CE Project: gem-db1.project.xml
- `http://www.gem.or.at/cgi-bin/gem.pl?funktion=stichwort&stichwort2=&operator=OR&stichwort1=3&aktion=suche&submit=Suche&sprache=de`
CE Project: gem-db1.project.xml

The status bar at the bottom of the browser window shows 'Done'.

Scheduler für den Deliverer

http://gallina.lixtu.tuwien.ac.at:23080 - Deliverer5 - Deliverer Configuration - Lixto Transformation Server - Mozilla Firefox

General **Device Configuration** **Scheduler** **Parameters** **Delivery**

Between
All events of this scheduler rule must occur
From: 16 January 2007 13 14
To: .

Month Condition
All events of this scheduler rule must be
In: any month
On: any day (of month), **OR**
On: any weekday, in: any week (of month).

Time
Within every day matching the conditions above, all events must take place
At: h min.
To: h min.

Period
Within the time frame(s), described by the conditions above, matching events must occur
Every: 1 h 0 min 0 s.

Done
